Promoting Dialogue Between Art & Science through ‘CNIO Arte’ 257
New Major Gift to the CNIO 258
CNIO Friend Donor Events 259
Donors to the CNIO 2022 260
The CNIO Friends Programme enjoyed a record-breaking year in which we raised over €1 million in donations and pledges for the first time. We also raised our first major gift since the inception of the Office of Philanthropy and Development, with an innovative and generous donation from Fundación Humanismo y Ciencia.

In all, the CNIO Friends Programme raised €1,017 million in 2022, which is particularly generous given the financial effects of the last few years due to the pandemic and other economic global challenges.

For the third year, CNIO Friends messaging was supported by a multichannel branding and fundraising World Cancer Day campaign in February, this time in collaboration with award-winning PR agency True PR. The lottery campaign “The lottery that touches you the most” encouraged members of the public, companies and foundations to support CNIO with philanthropy, by highlighting the chances of developing different types of cancer in Spain. The campaign was supported by the generosity of Exterior Plus and JCDecaux España to spread the message around Spain.

The 5th annual CNIO Arte initiative showcased a collaboration between artist Susana Solano and scientist Pedro Alonso, director of the World Health Organization’s (WHO) Global Malaria Programme. Sculptor Solano travelled to Mozambique to visit the research centre founded by Alonso, who is also an epidemiologist. On Solano’s return, she created the piece entitled “The world of things”. Any profits from the sale of artworks from this initiative go directly to the CNIO Friends Programme.

In 2022, we strengthened our partnership with a number of our closest donors and Friends. We were delighted to receive a generous donation once again from Brother Iberia, and were honoured to receive €100k from an anonymous donor in support of CNIO Arte. We strengthened our alliance with Santa Lucia Seguros this year and were grateful to receive donations from cancer patients’ associations such as Rosae, L@s Fuertes, Marea Rosa, Bandera Rosa, and El Arbol de la Vida. New collaborations were formed with Corporación RTVE, the Ayuntamiento de Torreperogil (Jaén), among others.

After working together for a number of years on joint communication efforts, we were delighted to raise a funded CNIO Friends contract from L’Oréal España in the name of La Roche - Posay. In addition, we continued to grow our alliance with our trusted friend Fundación Domingo Martinez.

In July we celebrated the “CNIO Friends” Day, in person for the first time since the start of the pandemic. We enjoyed a very emotional event that brought together more than 90 Friends to have the opportunity to meet first-hand the postdoctoral researchers hired thanks to their contributions. After an overview of the work of the CNIO by Maria Blasco, 7 researchers presented their projects and then we concluded the event with a visit to our laboratories to see first-hand the innovative work of our scientists. It was a lovely opportunity for our funded Fellows to see the impact of their work on their supporters and vice versa.

After a couple of unusual years, it was exciting to get back to a more “normal” fundraising model this year, despite the current volatile situation, which has been reflected in our success. It has been both challenging and rewarding to have the opportunity to create new alliances and collaborations via events and networking opportunities, and we have been humbled by the generosity of many of our new and existing Friends. In 2023, we will continue to develop and grow our philanthropic programme. Most importantly, for 2022 we extend a heartfelt message to our donors - thank you.
‘CNIO FRIENDS’ INTERNATIONAL PREDOCTORAL/POSTDOCTORAL CONTRACTS

PREDOCTORAL CONTRACTS

2018 PREDOCTORAL
Elena Pueyo
GENOMIC INSTABILITY GROUP
MARIA OLIVA
CNIO FRIENDS

2019 PREDOCTORAL
Moustafa Shalata
KINASES, PROTEIN PHOSPHORYLATION AND CANCER GROUP
CARMEN GLORIA

CNIO FRIENDS
In July we celebrated the ‘CNIO Friends’ Day. We enjoyed a very emotional event that brought together more than 80 Friends for the first time since the pandemic. Our Friends had the opportunity to meet first-hand the postdoctoral researchers hired thanks to their contributions, and hear about their research projects. We concluded the event with a visit to our laboratories to see first-hand the exciting work of our scientists.
For the 3rd consecutive year, on February 4, we launched a joint fundraising and communication campaign, created and led by the communication agency True, under the slogan “The lottery that touches you the most” together with our logo #CNIOStopCancer. The main event involved a lottery held on Calle Arenal in central Madrid in which members of the public received “scratch and win” cards to show the high probability of suffering from cancer and increase the visibility of the CNIO. The campaign was strengthened by exterior billboards across bus stops, train stations and shopping centres in Spain thanks to the support of JCDecaux and ExteriorPlus.

The 5th edition of CNIO Arte this year was created through conversations between artist Susana Solano and scientist Pedro Alonso, director of the World Health Organization’s (WHO) Global Malaria Programme. Sculptor Susana Solano travelled to Mozambique to visit the research centre founded by the epidemiologist Pedro Alonso. On her return, she created the piece entitled “The world of things”. Any profits from the sale of artworks from this initiative go directly to the CNIO Friends programme.
NEW MAJOR GIFT TO THE CNIO

Fundación Humanismo y Ciencia, on the occasion of their 25th Anniversary and in recognition of one of the founding patrons Carlos Zapata, generously supported the CNIO with a major gift to support a research project on renal fibrosis and telomeres at the CNIO. This generous donation was recognised in a moving ceremony, culminating in the installation of a plaque on the 3rd floor.

CNIO FRIEND DONOR EVENTS

Fundación Domingo Martínez had the opportunity to meet their funded CNIO Friends Postdoctoral Research Fellow and visit her lab in person for the first time.

Brother Iberia continued their support of our cancer research with another generous donation in 2022.
DONORS TO THE CNIO 2022

BENEFACTOR FRIENDS

- Alberto Heras Hermida
- Alejandro Mendoza Plaza
- Alfonso Carrobles Romero
- Antonio Segura Baeza
